

Intravenous Therapy & Blood Withdrawal

Program Description:

Intravenous Therapy and Blood Withdrawal is designed to prepare students to perform procedures related to the expanded scope of intravenous therapy. Covered subjects include: the safe administration and maintenance of intravenous therapy, commonly used solutions, vein selection and venipuncture techniques, and recognition of and response to complications. The program includes laboratory practice. IV Therapy and Blood Withdrawal meets the certification requirements of the California Board of Vocational Nursing & Psychiatric Technicians.

Enrollment Prerequisites:

- **Completion** of an approved Nursing Program or current Vocational Nurse Student. (Vocational Nurse License or school transcripts required for verification to enroll).
- Refer to the student handbook to review all program policies at www.cryop.org or request a free copy in the Student Services Office.
