

# Nurse Assistant - Certified

## Program Description:

The Nurse Assistant—Certified program is designed to prepare students for employment as a Nurse Assistant in a variety of settings. Students will learn patient care, observation, and communication skills with an emphasis on caring for the geriatric resident in a long term care facility. The program prepares students to be successful in the work place by teaching employability skills and modeling workplace expectations. The program includes both classroom instruction and 100 hours required hands-on clinical work experience.

## Enrollment Prerequisites:

- Successful completion of the CASAS Exam—a basic academic assessment (See testing dates on back) - Password required for registration. Password given with passing assessment score.
- Possession of a valid government issued photo ID
- Original Social Security Card, or right to work document
- Students must be 18 years old by the completion of the program and out of high school

## Required Immunizations/Health Clearances:

- 2 step TB Test (If questions ask staff in Student Services for more details)
- Hepatitis B Vaccine: first injection is required by the 1<sup>st</sup> day of the program. Second and third injections should be received as recommended by the vaccine schedule.
- Physical Examination (Required form available in Student Services)

## CORE PROGRAM TOPICS
