

CONSTRUCTION & FACILITIES MAINTENANCE

Program Description:

Construction and Facilities Maintenance is designed to prepare students for entry-level employment. The program includes instruction in blueprint reading, construction math, industry specific vocabulary, and pre-employment skills. Students will learn proper maintenance and use of tools, equipment, and materials related to industry. Additional topics such as personal health, worksite safety, physical agility and strengthening ensure students understand the importance of safety and the physical abilities required for employment. Activities in the course include work-based learning that connects students to industry, local community, and local apprentice programs. 224 Hours (192 Hours classroom/32 Hours community classroom)

Program Requirements:

- 18 yrs. of age or older. (High school students may attend if 18 yrs. old and attending one of our high schools.)
- Ability to perform required safety standards, good physical health & lift 100 lbs.
- Must attend class sessions as scheduled.

Certificates Earned (with a score of 80% or better on each):

- S/P 2-Construction Safety and Hazardous Materials
- S/P 2-Soft Skills Training for Career Technical Education
